

What's New in the R3000 '2.1.05' Version

This newest release of software for the R3000 Enterprise Filter requires an R3000 unit running software version 2.1.00 or later.

NOTE: *8e6 recommends applying this software update during periods of low network usage, as it will have a severe impact on the server resulting in a decreased filtering performance for approximately five minutes.*

Hot Fix

- The 2.1.05 patch addresses a recent vulnerability (ref. <http://secunia.com/advisories/31391/>) in the R3000 that could allow a malicious user to bypass filtering.
