

ProxyBlocker '1.0.00' Version

This flagship release of the 8e6 ProxyBlocker product uses an 8e6 ProxyBlocker unit running software version 1.0.00 or later.

Key Features of the 8e6 ProxyBlocker

- Uses 8e6 Proxy Pattern Detection to block Web-Based Proxies and Anonymizers, as well as IM and P2P sites
- Utilizes the 8e6 URL Library to block Web-Based Proxies and Anonymizers
- Provides for Google and Yahoo safe-search enforcement and blocks inappropriate Google images
- Offers Search Engine Keyword filtering using keyword libraries from the Adult Content library and the Web-Based Proxy category
- Uses HTTPS high level filtering to prevent access to sites with invalid certificates
- Employs the X-Strikes feature to lock out end users from accessing policy-restricted Internet content after a designated number of attempts
- Lets you run a recurring daily Real Time Probe to target users who continually abuse Internet privileges by accessing URLs against your organization's policies
